

CRAFT-OA

CRAFT-OA (Creating a Robust Accessible Federated Technology for Open Access) makes state-of-the-art Open Access publishing available to everyone. From Jan 2023 to Dec 2025 the 23 project partners from 17 European countries will help journals and publishers improving technical & organisational infrastructures of Diamond OA.

The Diamond Discovery Hub

- ▶ a single access point increasing interoperability between provider's metadata and aggregator's requirements

Code and software enhancement

- ▶ enabling interoperability between OJS & Lodel
- ▶ feeding into the EOSC catalogue
- ▶ enhancing key features of OJS

Toolkits and training

- ▶ on FAIR publishing within the EOSC interoperability framework
- ▶ summer schools, meet-the-expert

Collaboration

In collaboration with the fellow EU-projects DIAMAS & PALOMERA, CRAFT-OA brings resilience to the OA landscape by centralising expertise.

Extensible Quality Standard for Institutional Publishing (EQSIP)

DIAMAS establishes EQSIP 1.0, the common standard for Diamond OA publishing. CRAFT-OA will present technical recommendations for the final version, EQSIP 2.0.

Policy and Technical Recommendations

Taking Diamond OA publishing to the next level requires high-standard policy recommendations for funders and policy makers. Sustaining funded infrastructures needs strong technical recommendations

Diamond Capacity Hub

The Diamond Capacity Hub raises visibility, discoverability and recognition for Diamond OA publishing, helps sustain and extend the the community's knowledge and expertise around Diamond OA & strengthen FAIR and equitable publishing via

- ▶ tools, guidelines, governance, and funding for the Diamond OA community
 - ▶ Creating a resilient virtual distributed network of resources and collaborating regional/ national Capacity Centers coordinated via a global federation for Diamond OA.
 - ▶ Technical infrastructure support for the Diamond Capacity Hub, added in the coming 5 years via CRAFT-OA, its sister projects and communities
